Professional Summary

Infrastructure & DevOps Engineer with 1.5+ years of hands-on experience in containerization, CI/CD automation, cloud infrastructure, and production observability. Built and deployed a complete production-grade AWS EKS cluster using Terraform, implemented GitOps with ArgoCD, and added full observability using Prometheus + Grafana. Experienced in managing high-security government infrastructure, Docker containerization, GitHub Actions pipelines, and zero-downtime deployments. Seeking DevOps / SRE / Platform Engineer roles to design scalable and reliable infrastructure.

Technical Skills

- **DevOps & Cloud:** Docker, Kubernetes (EKS), Terraform (IaC), ArgoCD (GitOps), Helm, GitHub Actions (CI/CD), AWS (EC2, ECR, EKS, VPC, IAM, ASG), Nginx
- **Monitoring & Observability:** Prometheus, Grafana (Custom Dashboards & Alerting), New Relic, prom-client
- **Operating Systems:** Linux (Ubuntu, CentOS), Windows Server
- **Networking:** TCP/IP, DNS, DHCP, Firewalls, VPN, Subnetting, Load Balancing
- **Scripting & Programming:** Bash/Shell Scripting, Python, JavaScript, TypeScript
- **Version Control:** Git, GitHub (CI/CD Workflows)
- **Web Technologies:** React.js, Next.js, Node.js, Express.js, RESTful APIs
- **Databases:** PostgreSQL, MongoDB, SQL
- **Security:** SSL/TLS, Rate Limiting, CORS, API Key Auth

Professional Experience

- | | |
|--|---------------------|
| CSK Infotech | Dec 2025 – Feb 2026 |
| Network Administrator — Client: India Government Mint, Hyderabad | Hyderabad, India |
| <ul style="list-style-type: none">• Managed network infrastructure for high-security government facility, ensuring 99%+ uptime of critical systems• Containerized legacy applications using Docker and implemented GitHub Actions CI/CD pipeline• Designed Prometheus + Grafana observability stack with custom metrics and alerting• Configured Nginx reverse proxy, SSL/TLS, and security hardening across production Linux servers | |
| Keypoint Technologies | Aug 2025 – Dec 2025 |
| IT Infrastructure Support — Client: India Government Mint, Hyderabad | Hyderabad, India |
| <ul style="list-style-type: none">• Provided production infrastructure support and system administration for critical government applications• Performed system health checks, backup verification, and security policy implementation | |
| MDP Infra (India) Pvt. Ltd. | Oct 2023 – Jan 2024 |
| Frontend Developer Intern | Bhopal, India |
| <ul style="list-style-type: none">• Redesigned attendance system, improving user experience by 40% and reducing page load time by 25%• Built interactive data visualization dashboards and integrated frontend with RESTful APIs | |

DevOps & Infrastructure Projects

- | | |
|--|------------------------|
| AWS EKS Cluster with GitOps & Observability | GitHub |
| <ul style="list-style-type: none">• Provisioned production-grade EKS cluster using Terraform (VPC, subnets, IAM, node groups) with high availability across multiple AZs• Implemented full GitOps workflow with ArgoCD and Helm for declarative, zero manual kubectl deployments• Built complete observability stack with Prometheus (ServiceMonitor + custom metrics) and Grafana dashboards for CPU, memory, pod health, request latency, and error rate• Automated end-to-end CI/CD using GitHub Actions (test → Docker build → ECR push → Helm values update → ArgoCD sync)• Reduced deployment time from 45 minutes to under 3 minutes with fully reproducible infrastructure | |

KistCompare — Fintech App (Production Monitoring & Container Orchestration)

kistcompare.in

- Containerized full-stack fintech application using Docker multi-stage builds (60% image size reduction)
- Architected Prometheus + Grafana observability stack with custom metrics and 8-panel dashboards
- Built GitHub Actions CI/CD pipeline with zero-downtime deployment to AWS EC2
- Implemented production security (rate limiting, CORS, API key authentication)

Linux Server Automation Scripts

[GitHub](#)

- Developed Bash scripts for automated server setup, monitoring, and security hardening

Education

Technocrats Institute of Technology and Science

Bhopal, MP

BTech in Computer Science Engineering

2023

- CGPA: 8.02/10
- Relevant Coursework: Data Structures, DBMS, Software Engineering, OOP, Computer Networks, Operating Systems

Certifications & Continuous Learning

- DevOps Engineering Roadmap (Kubernetes, Terraform, ArgoCD, GitOps) — Self-paced, Completed
- Full Stack Development — Completed
- Actively contributing to open-source DevOps projects
